Profile

Proactive and communicative digital specialist with broad experience across web, content, digital channels, and audience-focused communication. Combines strategic thinking with hands-on execution in roles involving customer dialogue, analysis, content development, and continuous improvement. Comfortable working in environments with multiple stakeholders, a high level of responsibility, and a strong focus on clear communication, collaboration, and business value.

Core Competencies

- Strategic and operational communication
- Digital channels, web, and content development
- Content creation and audience adaptation
- SEO, web analytics, and digital visibility
- Social media and campaign planning
- Customer communication and relationship management
- Coordination, planning, and execution
- Reporting, performance follow-up, and process improvement
- Visual communication and digital production

Professional Experience

Owner & Agency Director

Imba SEO | July 2022 – December 2024

Founded and managed the agency, with responsibility for both strategic and operational work within digital communication, SEO, and web. Worked with content strategy, analysis, site structure, online visibility, and the development of digital solutions for clients across multiple industries. Also responsible for planning, advisory work, and delivery of initiatives related to content, visibility, and digital communication.

Head of SEO

SEO Hero | October 2021 – June 2022

Led strategic planning, analysis, and ongoing improvement initiatives related to digital visibility, content, and communication. Worked across both high-level strategy and hands-on implementation, with a strong focus on structure, performance, content quality, and measurable results. Collaborated closely with clients and internal teams to drive long-term improvements.

Upper Secondary Vocational Teacher

Thorén Innovation School | February 2021 – June 2021, August 2021 – September 2021

Taught web server programming, computer engineering, and computer and network

technology. Planned and delivered lessons, adapted communication to different target groups, and explained complex subjects in a clear and structured way. This role strengthened my ability to communicate effectively, build trust, and respond to varying needs.

Digital Marketing Specialist

Empire Web | April 2020 – July 2021

Worked with content, SEO, SEM, copywriting, website development, CRO, and analysis. Focused on improving clients' online visibility, traffic, and user experience, while contributing to content production, site structure, and ongoing website development. The role combined analytical work with close collaboration around digital communication and business goals.

Freelance Web and Digital Development Consultant

Freelance | 2020

Delivered freelance assignments involving websites, digital communication, content, and the development of online presence for different organisations. Contributed both strategically and operationally in projects where structure, content, and functionality needed to be developed in parallel.

Web Administrator / E-commerce & Customer Support

VVS i Syd AB | March 2019 – August 2019

Worked with e-commerce, web-related tasks, administration, and customer support. Managed daily customer communication via email, phone, and chat, handling cases clearly and professionally across multiple channels. The role provided strong practical experience in service, customer dialogue, and communication.

SEO/SEM Manager

Nilson Group AB | September 2017 – August 2018

Worked with campaigns, traffic-driving initiatives, budget input, strategy development, reporting, and performance follow-up. Also involved in CRO, A/B testing, market monitoring, and social media-related activities. The role included international collaboration and regular communication with management and cross-functional teams.

Product Owner / SEO Specialist

NA-KD | August 2016 – February 2017

Held a role combining product ownership and digital development, where structure, collaboration, and communication were central. Contributed to the development of internal ways of working and collaborated internationally with both internal and external stakeholders.

CEO / Developer / Co-owner

E-komet AB | May 2015 – May 2016

Co-founded the company and worked with development, meetings, media relations, and digital communication across both digital and print channels. Gained broad experience in responsibility, coordination, and communication in a smaller business environment where multiple functions had to be managed simultaneously.

SEO Specialist

DoubleSearch AB | August 2014 – April 2015

Worked with analysis, strategy, reporting, follow-up, and client communication related to websites and digital development. Also contributed to ideation and planning of new projects and services within the company.

Founder / Self-employed

Mijo Media | November 2012 – May 2016

Ran my own business focused on web, digital development, business development, and digital visibility. Worked closely with clients on analysis, consulting, and hands-on implementation.

Positions of Trust

Vice Chair

Association for Event and Festival Safety | 2024 – Present

Contribute to strategic safety work for larger events and festivals, including risk analysis, crisis management, training, and collaboration. This role has further strengthened my ability to plan, communicate clearly, collaborate effectively, and take responsibility in environments with many stakeholders.

Education

Media Technology

Blekinge Institute of Technology | 2008 – 2010

Studies in media technology with a focus on interactive systems. Coursework included programming, web development, social media, and digital solutions.

IT and Media Programme

John Bauer Upper Secondary School, Karlshamn | 2005 – 2008

Completed studies in IT and media, including foundational courses in media communication, media studies, and digital subjects.

Certifications

Completed several certifications over the years in SEO, PPC, Google Analytics, Google Ads, content marketing, inbound marketing, social media, and digital marketing through providers including SEMrush, Google, and HubSpot.

Systems & Tools

Strong experience with digital tools and platforms for web, content, analytics, reporting, and production. Tools and platforms include Microsoft Word, PowerPoint, Excel, Adobe Photoshop, InDesign, Premiere Pro, Google Analytics, Google Search Console, SEMrush, Ahrefs, Hootsuite, Data Studio, and CMS platforms such as WordPress, WooCommerce, Magento, Webflow, Drupal, and Joomla.
